
Under the Influence/Impaired Driving

504.1 PURPOSE AND SCOPE

This policy provides guidance to those office members who play a role in the detection and investigation of driving under the influence/driving while impaired (DUI/DWI).

504.2 POLICY

The Talbot County Sheriff's Office is committed to the safety of the roadways and the community and will pursue fair but aggressive enforcement of Maryland's impaired driving laws.

504.3 INVESTIGATIONS

Deputies should not enforce DUI/DWI laws to the exclusion of their other duties unless specifically assigned to DUI/DWI enforcement. All deputies are expected to enforce these laws with due diligence.

The Operations Patrol Captain will develop and maintain, in consultation with the prosecuting attorney, report forms with appropriate checklists to assist investigating deputies in documenting relevant information and maximizing efficiency. Any DUI/DWI investigation will be documented using these forms. Information documented elsewhere on the form does not need to be duplicated in the report narrative. Information that should be documented includes, at a minimum:

- (a) The field sobriety tests (FST) administered and the results.
- (b) The deputy's observations that indicate impairment on the part of the individual, and the deputy's health-related inquiries that may help to identify any serious health concerns (e.g., diabetic shock).
- (c) Sources of additional information (e.g., reporting party, witnesses) and their observations.
- (d) Information about any audio and/or video recording of the individual's driving or subsequent actions.
- (e) The location and time frame of the individual's vehicle operation and how this was determined.
- (f) Any prior related convictions in this state or another jurisdiction.

504.4 FIELD TESTS

The Operations Patrol Captain should identify standardized FSTs and any approved alternate tests for deputies to use when investigating violations of DUI/DWI laws.

504.5 CHEMICAL TESTS

A person implies consent under Maryland law to a chemical test or tests, and to providing the associated chemical sample, when a deputy has detained the person on suspicion of driving or

Talbot County Sheriff's Office

Policy Manual

Under the Influence/Impaired Driving

attempting to drive a motor vehicle when the person is (Md. Code TR § 16-205.1(a)(2); Md. Code TR § 16-205.2(a); Md. Code TR § 16-813):

- (a) Under the influence of alcohol or impaired by alcohol.
- (b) So impaired by any drug, any combination of drugs or a combination of a drug and alcohol that he/she cannot safely drive a vehicle.
- (c) Impaired by a controlled dangerous substance.
- (d) In violation of an alcohol restriction.
- (e) Driving, operating or in physical control of a commercial vehicle with any concentration of alcohol in his/her blood or breath.

If a person withdraws this implied consent, or is unable to withdraw consent (e.g., the person is unconscious), the deputy should consider implied consent revoked and proceed as though the person has refused to provide a chemical sample.

A test to determine alcohol concentration shall be taken within two hours after the person is apprehended. A test to determine the presence of a drug or a controlled dangerous substance shall be taken within four hours after the person is apprehended (Md. Code CJ § 10-303).

504.5.1 TYPE OF TEST

A blood test may be required: (Md. Code CJ § 10-305):

- (a) To determine alcohol concentration when:
 1. Injuries to the person require removal of the arrestee to a medical facility.
 2. Equipment for administering the test of breath is not available.
 3. A deputy has reasonable grounds to believe a person who was involved in a motor vehicle accident that resulted in death or a life-threatening injury to another person was driving while under the influence or impaired by alcohol or drugs, pursuant to Md. Code TR § 16-205.1(c)(1)(ii) or (c)(1)(iii).
- (b) The deputy reasonably believes that the impairment is caused by drug or controlled dangerous substance content.

504.5.2 STATUTORY NOTIFICATIONS

Deputies shall advise the detained person that:

- (a) Neither a refusal nor the taking of a preliminary breath test shall prevent or require a subsequent chemical test (Md. Code TR § 16-205.2(b)).
- (b) Upon receipt of a sworn statement from the deputy that the person was charged with DUI/DWI and refused to take a test, or was tested and the result indicated an alcohol concentration of 0.08 or more, the Motor Vehicle Administration (MVA) shall (Md. Code TR § 16-205.1(b)):
 1. Suspend the person's driving privilege pursuant to state law.
 2. Disqualify the person's privilege to operate a commercial vehicle pursuant to state law.

Under the Influence/Impaired Driving

The result of the preliminary breath test shall be used only to decide whether an arrest should be made (Md. Code TR § 16-205.2(c)).

504.5.3 BREATH SAMPLES

The Operations Patrol Captain should ensure that all devices used for the collection and analysis of breath samples are properly serviced and tested, and that a record of such service and testing is properly maintained.

Office members obtaining a breath sample should monitor the device for any sign of malfunction. Any anomalies or equipment failures should be noted in the appropriate report and promptly reported to the Operations Patrol Captain.

A breath test shall be administered at the direction of a deputy by a qualified person trained in the use of equipment that has been approved under the Postmortem Examiners Commission. The arresting deputy may not administer the breath test (Md. Code CJ § 10-304(b)).

Unless otherwise required by law, a breath test shall be used to determine alcohol concentration (Md. Code CJ § 10-305(a)).

504.5.4 BLOOD SAMPLES

Only a qualified medical person trained in the use of equipment that has been approved under the Postmortem Examiners Commission shall draw blood to collect blood samples. The blood draw should be witnessed by the assigned deputy. No deputy, even if properly certified, should perform this task (Md. Code CJ § 10-304(c)(1)).

The blood sample shall be packaged, marked, handled, stored and transported as required by the testing facility.

If an arrestee cannot submit to a blood draw because he/she has a bleeding disorder or has taken medication that inhibits coagulation, he/she shall not be required to take a blood test. Such inability to take a blood test shall not be considered a refusal. However, that arrestee may be required to complete another available and viable test.

504.6 REFUSALS

When an arrestee refuses to provide a chemical sample, deputies should (Md. Code TR § 16-205.1(b)(2)):

- (a) Advise the arrestee of the requirement to provide a sample and the administrative sanctions or criminal penalties for refusal (Md. Code TR § 16-205.1(b)(1)).
- (b) Audio- and/or video-record the admonishment and the response when practicable.
- (c) Document the refusal in the appropriate report.

Any person who drives, operates or is in physical control of a commercial motor vehicle and refuses to take a chemical test to determine the alcohol concentration shall be placed out of service for the 24-hour period immediately following the time the deputy detects alcohol in the driver's blood or breath (Md. Code TR § 16-813(b)).

Talbot County Sheriff's Office

Policy Manual

Under the Influence/Impaired Driving

504.6.1 STATUTORY NOTIFICATIONS UPON REFUSAL

Upon refusal to submit to an alcohol concentration test or a drug and controlled dangerous substance test, deputies shall (Md. Code TR § 16-205.1(b)(3)):

- (a) Confiscate the person's driver's license.
- (b) Personally serve an order of suspension of the driver's license on the person.
- (c) Issue a temporary license to drive.
- (d) Inform the person that the temporary license allows the person to continue driving for 45 days.
- (e) Inform the person of his/her rights, as listed on the MVA Advice of Rights form.

504.6.2 BLOOD SAMPLE WITHOUT CONSENT

A blood sample should be obtained when any of the following conditions exist:

- (a) A person has refused to submit to a chemical test and the deputy has reasonable grounds to believe that the person was involved in a vehicle accident while driving under the influence of alcohol or a controlled substance that resulted in serious bodily injury or death of another (Md. Code TR § 16-205.1(c)(1)).
- (b) The deputy has reasonable grounds to believe a person was driving while under the influence of alcohol or a controlled substance and the person is dead, unconscious or otherwise in a condition that renders him/her incapable of refusing a test. (Md. Code CJ § 10-305; Md. Code TR § 16-205.1(d)(1)).
- (c) A warrant is required if either of these circumstances exists, unless the deputy can articulate that exigent circumstances exist. Exigency does not exist solely because of the short time period associated with the natural dissipation of alcohol or controlled or prohibited substances in the person's bloodstream. Exigency can be established by the existence of special facts, such as a lengthy time delay resulting from an accident investigation or medical treatment of the person.

504.6.3 FORCED BLOOD SAMPLE

If an arrestee indicates by word or action that he/she will physically resist a blood draw, the deputy should request a supervisor to respond.

The responding supervisor should:

- (a) Evaluate whether using force to obtain a blood sample is appropriate under the circumstances.
- (b) Ensure that all attempts to obtain a blood sample through force cease if the person agrees to, and completes, a viable form of testing in a timely manner.
- (c) Advise the person of his/her duty to provide a sample (even if this advisement was previously done by another deputy), and attempt to persuade the individual to submit to providing such a sample without physical resistance.
 - 1. This dialogue should be recorded on audio and/or video when practicable.
- (d) Ensure that the blood sample is taken in a medically approved manner.

Talbot County Sheriff's Office

Policy Manual

Under the Influence/Impaired Driving

- (e) Ensure that the forced blood draw is recorded on audio and/or video when practicable.
- (f) Monitor and ensure that the type and level of force applied appears reasonable under the circumstances:
 1. Unless otherwise provided in a warrant, force should generally be limited to handcuffing or similar restraint methods.
 2. In misdemeanor cases, if the arrestee becomes violent or more resistant, no additional force will be used and a refusal should be noted in the report.
 3. In felony cases, force that reasonably appears necessary to overcome the resistance to the blood draw may be permitted.
- (g) Ensure the use of force and methods used to accomplish the collection of the blood sample are documented in the related report.

If a supervisor is unavailable, deputies are expected to use sound judgment and perform the duties of a supervisor, as set forth above.

504.7 ARREST AND INVESTIGATION

504.7.1 REPORTING

The Operations Patrol Captain shall ensure that this office complies with all state reporting requirements pursuant to Md. Code TR § 16-205.1(b)(3)(viii).

504.7.2 TEST ADMINISTERED BY OUTSIDE PHYSICIAN

A person is permitted to have a physician of his/her own choosing administer tests, in addition to the test administered at the direction of a deputy. In the event a test was neither offered nor requested by the deputy, the person may request, and the deputy shall have administered, one or more of the tests provided by state law (Md. Code CJ § 10-304(e)).

504.8 PATROL OPERATIONS DIVISION RESPONSIBILITIES

The Patrol Operations Commander will ensure that all case-related records are transmitted according to current records procedures and as required by the prosecuting attorney's office.

504.9 ADMINISTRATIVE HEARINGS

The Patrol Operations Commander will ensure that all appropriate reports and documents related to administrative license suspensions are reviewed and forwarded to the MVA.

Any deputy who receives notice of required attendance at an administrative license suspension hearing should promptly notify the prosecuting attorney.

A deputy called to testify at an administrative hearing should document the hearing date and the MVA file number in a supplemental report. Specific details of the hearing generally should not be included in the report unless errors, additional evidence or witnesses are identified.
