Members are authorized to use firearms to stop an animal in circumstances where the animal reasonably appears to pose an imminent threat to human safety and alternative methods are not reasonably available or would likely be ineffective.

In circumstances where there is sufficient advance notice that a potentially dangerous animal may be encountered, office members should develop reasonable contingency plans for dealing with the animal (e.g., fire extinguisher, oleoresin capsicum (OC) spray, animal control officer). Nothing in this policy shall prohibit any member from shooting a dangerous animal if circumstances reasonably dictate that a contingency plan has failed or becomes impractical.

The Firearms Supervisor has the responsibility of making periodic inspection, at least once a year, of all duty firearms carried by members of this office to verify proper operation. The Firearms Supervisor has the authority to deem any office-issued or off duty firearm unfit for service. The member will be responsible for all repairs to his/her off duty firearm; it will not be returned to service until it has been inspected and approved by the Firearms Supervisor.

All firearms will be inspected by the Firearms Supervisor according to the established schedule or as directed by the Firearms Supervisor.

The Firearms Supervisor has the responsibility for ensuring each member meets the minimum requirements during training shoots and, on at least a yearly basis, can demonstrate proficiency in the care, cleaning and safety of all firearms the member is authorized to carry.

The Firearms Supervisor shall complete and submit to the Training Supervisor documentation of the training courses provided. Documentation shall include the qualifications of each instructor who provides the training, a description of the training provided and, on a form that has been approved by the Office, a list of each member who completes the training.
